DIRECTOR'S MESSAGE

Prof. VINEET KANSAL

IET, Lucknow, a state government and a constituent college of Dr. APJ Abdul Kalam Technical University, Lucknow was established in the Year 1984 aiming to provide the leadership in education and research with a focused approach on science and technology. We understand that only the enabling environment cherish and nurture creative minds and synergize them to greater heights of achievement in their pursuits. The institution has the social responsibility towards the educational uplift of the weaker sections of the society as a part of the organizational commitment. The critical regional issues are given the due consideration in learning, innovation and research.

We promote interdisciplinarily orientation with due opportunities for co-curricular, extra-curricular, intellectual activities and unparalleled emphasis on nurturing the individual. In the time of global pandemic, the pedagogy needs to redefine. The online learning and flip classrooms need to strengthen and laboratories to be supplemented with virtual labs.

I strongly believe that the success of an organization can't be achieved while working in silos. It is the sum total of the dedicated efforts of its every individual. I am sure and confident that with the support and commitment of qualified and experienced faculty members, supportive administration and vibrant students, we shall be able to carve out the niche in pursuit of our vision and contribute to the development of the region and our motherland as visualized in National Education Policy 2020.

Jai Bharat

TPO'S MESSAGE

Dr. Arun Kumar Tiwari

On behalf of the Institute of Engineering and Technology, Lucknow, it is my pleasure to invite you to our radiant academic campus to conduct campus selection program for our students. Established in the year 1984, the institute has improved in every domain in the last three decades. The students of this institute are occupying enviable positions in various organizations at home and abroad. Our students have lived up to the expectations of organizations that visit the campus, looking for bright candidates to take up important and challenging responsibilities at their workplace.

I am furnishing in the pages to follow all pertinent information about our college and students studying here. I would request you to kindly visit our campus for selecting candidates of your choice on any date convenient to both of us. Here at IET, we look forward to nurture and extend our relationship in upcoming years. The Institute has earned fame not only for its excellent academic and extracurricular activities but also for its research, consultancy and development activities. We truly appreciate the faith bestowed on us from your organization and we look forward to continuing our relationship with you. Looking forward to meeting you at our campus.

ABOUT US

HISTORY

IET was established by the Government of U.P in 1984, for imparting engineering education and for promoting technological research to generate suitable technical manpower. The Institute is financed by government of Uttar Pradesh and is being administered by the executive council of AKTU.

VISION

To effectively contribute towards the national endeavor of producing world-class manpower and to usher in technology-driven economic development of the country to enrich the quality of life of its citizens by promoting innovative technologies and optimal utilization of resources for sustainable development.

MISSION

To establish the global state of the art facilities and resources that will prepare and enrich the human resource by promoting all-inclusive research, developments, and instilling problem-solving skills for overcoming real-life challenges by imparting value-based professional education.

ACADEMIC PROGRAMME

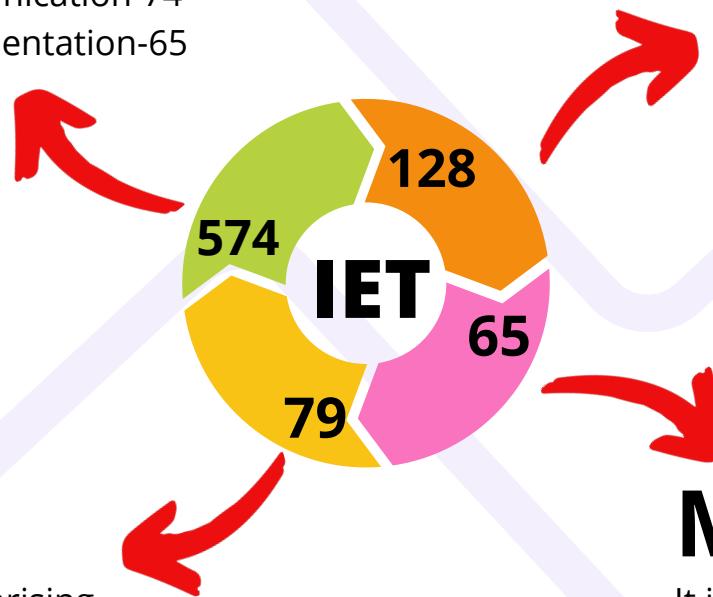

B.Tech

It is a 4-year program comprising of 8 semesters. The B Tech program is finely divided among 6 departments and 8 branches.

- Mechanical-73
- Electrical-72
- Civil-72
- Computer Science-78
- Information Technology-72
- Electronics and Communication-74
- Electronics and Instrumentation-65
- Chemical-68

MCA

It is a 3-year program comprising of 6 semesters. The postgraduate program is designed to meet the growing demand for qualified professionals in the field of Information Technology.

M.Tech

It is a 2-year program comprising in-depth study and research thus has been a host to various diverse higher studies. Courses include higher-level group projects or individuals research projects.

- Electrical Drives and Control-13
- Structural -17
- Micro Electronics-7
- Mechanical-10
- Environmental-18
- Biotechnology-14

MBA

It is a 2-year program comprising business administration and investment management. Programs include elective courses for further study in a particular area.

- HR
- MARKETING
- FINANCE
- OPERATIONS
- IT

INFRASTRUCTURE

ACADEMIC BLOCK

The campus is self-sustained and is well equipped with requisite amenities to meet the needs of an Institute such as digital classrooms of different capacities, laboratories, central digital library, Air-conditioned conference hall, dispensary, seminar hall.

LIBRARY

Digital Library-Our 'advanced' college library is not only equipped with a wide variety of books but also with computer systems with good internet connectivity enabling a large number of students to avail the most out of traditional learning as well as digital learning. In a nutshell, currently, it is having over 123000+ volumes of Technical, General books, Computer Systems and also has resources like popular magazines print journals, Institute project reports & theses.

COMPUTER LABS

The auditorium can accommodate more than 800 individuals at once and is used as the center of all major happenings in the college. This facility has hosted dignitaries like the Chief Minister of the state, the Defence Minister, and numerous ISRO & DRDO scientists. Almost every cultural and technical activity related to the institute is conducted here

AUDITORIUM

The auditorium can accommodate more than 800 individuals at once and is used as the center of all major happenings in the college. This facility has hosted dignitaries like the Chief Minister of the state, the Defence Minister and numerous ISRO & DRDO scientists. Almost every cultural and technical activity related to the institute is conducted here

LABORATORIES

Each Department is having a special Lab making them unique among themselves:-

- The Applied Science Department has well-equipped Chemistry and Physics LABs.
- The mechanical department has a Workshop to enhance the practical experience for 1st-year students.
- ECE Department has Robotics LAB for advanced project purposes.
- EE Department has Tesla Hall that can be used as a departmental library, GD room, and for many other technical purposes.
- CSE Department has Digital LABs.

HOSTEL FACILITY

The Institute campus houses 8 hostels for boys and 5 for girls. The hostels are WiFi/Lan enabled and well equipped for comfortable lodging and boarding of the students. A Bank in the college premises itself, Dispensary for medical care & Canteen facilities on the campus add to the state-of-the-art infrastructure.

SPORTS COMPLEX

The role of sports in keeping the young engineers fit and active is immense. A sports complex with all the modern amenities is under construction at IET. This particular sports complex on campus is being constructed keeping in mind that the students and faculty members should get effortless access to sports. The Sports Complex will be having a football ground, a cricket field, a lawn tennis court, basketball, and volleyball courts, running track, etc. It will also have a multipurpose hall to cater to different indoor sports.

STUDENT LIFE

IET provides an environment that nurtures leaders in addition to sound engineers. Notwithstanding the tight academic schedule that students have, they manage to indulge in various extra-curricular activities. A host of activities ranging from collaborative learning, managing national level festivals to handling facilities like hostel mess and infrastructure are completely managed by students. These activities provide a multitude of holistic improvement platforms for students to hone their technical and managerial skills, which are imperative for one to excel in his/her workplace.

SOCITIES AND CLUBS

FRACTAL

Fractal is an active community of students and alumni to form a hyper-competitive workspace in the field of programming. The students are consistently involved in participating in regular programming challenges on different platforms as Hacker Earth, International platforms like ACM-ICPC (ranked 39th in Asia region), and Microsoft quantum (ranked 248th worldwide). The dedication and discipline of fractal has brought our institute to 17th position worldwide on SPOJ.

SAE

SAE Collegiate Club is a club under the Student Activity Center (SAC) of IET Lucknow promoting activities related to automotive engineering. Some of its major achievements are :

- 2016 - Overall second in "Ecokart Series 2016 Virtual Round "
- 2019 - Overall Winners in "Go-Kart Design Challenge 2019 (125cc)"
- 2020 - Overall 5th position in " Go-Kart Design Challenge 2020(150cc)"

ROBOTICS

IET is growing day by day to inspire and enable students to explore their creativity and engineering skills through robotics. One of the teams of the robotics club has upgraded the club by winning the E-yantra competition organized by IIT Bombay. Two teams became the finalists for E-yantra, 2020. A team of 3 rd year students bagged 1st position in "Smart India Hackathon", 2019. The students of this club have marked their presence as the winners in "Robowars" too held in IIT Patna and IIT BHU.

E-CELL

The Entrepreneurship Cell is run by the students of IET Lucknow. To mold these ideas into successful ventures and spread awareness about the same. It aims to inculcate the spirit of entrepreneurship among young minds. They try to provide adequate resources, financial or legal, for aspiring young entrepreneurs.

PARMARTH

Parmarth is a student-driven initiative aspiring to educate the underprivileged in the vicinity of campus. 147+ children living in the Mohibullapur slum area have been admitted to private schools through RTE with the efforts of this club. Student volunteers (currently a team of 200+) organize elementary education classes in the LT complex for 150+ such students.

Girls' education is emphasized upon and club members even provide free home tuition to uneducated adolescent/adult females, breaking the previously set stereotypes and creating a brighter future for them.

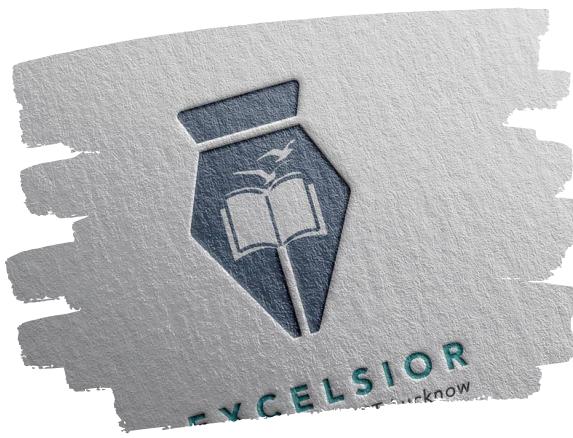

WHITEBOARD

With new times came up fresher ideas and henceforth the concept of a college media body was conceived in 2016. Christened 'The Whiteboard', it has been evolving rapidly ever since. Whether it's curating content aiming to strike the balance between elaborate jargon and convenient expressions, spurring ideas and messages worth knowing through unique graphics, or creating fun videos through the IET Monocle, we do it all. The team is a bunch of creative heads constantly bubbling with ideas and knocking heads to come up with the avant-garde.

EXCELSIOR

The name "Excelsior" itself stands for "superior quality" and thus the members of this club consistently work hard to refine and polish their skills to live up to that name. The club is home to students having a passion for literature, debating, poetry writing, creative writing, elocution et cetera; to showcase talent. It is largely viewed as a unique platform for all the literary enthusiasts in IET Lucknow. Throughout the year various events are organized by the club to foment a nurturing atmosphere

NAKSHATRA

Nakshatra is an active community of amateur astronomers and cosmology enthusiasts, based in Institute of Engineering & Technology, Lucknow and affiliated under Indira Gandhi Planetarium, Lucknow. This Club organize lecture sessions, discussions and observation sessions along with a few competitive events throughout the year. It is answered through theories of quantum physics and relativity or even to those who just like observing the beautiful night sky and heavenly bodies, which have captured human imagination for centuries.

Fests and Events

PARAKRAM

The annual techno-management festival of IET, Parakram is a summit of the theoretical and practical aspects of engineering with exposure to the latest trends and innovations. Attracting participants from all over the state, It hosts workshops, guest lectures conducted by the best in the industry and academia, coding, robotics events, paper presentations, and various other events.

SHAURAYOTSAV

Shauryotsava, The annual sports fest of IET Lucknow offers wide scope for the students to excel in the domain of sports and games. The students play a wide variety of sports and games such as Cricket, Football, Badminton, Basketball, Table tennis, Volleyball, Chess, Lawn Tennis, Athletics, etc.

TEDx IET LUCKNOW

TEDx- an independently organized event is a unique blend of experience and future expectation conjoined to give rise to incredible and indelible talks that inspire millions. The first TED event was held IN 2k19 in college marking the presence of numerous known personalities from various fields.

PRAVAH

Uttar Pradesh, a state enriched with the mesmerizing history of bilingual cultures, be it literature, music, arts, drama, or cinema. The gems of our state flow along the banks on MAA GANGA. Born out of these shared values that our tradition dictates us is the AKTU - Arts & cultural fest, PRAVAH.

The only city in the state to boast of a functional metro-rail system. The capital of Uttar Pradesh is no less when it comes to a vivid portrayal of history, culture, and modern leisure. The Chikankari, the Nawabi cuisine the mesmerizing parks, and the Lucknowi accent, all go into making the present-day Awadh a must-have on your checklists.

ENCORE

The Cultural Festival of the institute, ENCORE has been a perennial feature of the city of Lucknow poised in its own unique way between the pedestals of industry and civilization. It's a celebration of the human spirit, thoughts, and ideas. The thousands of people that are drawn in by some of the biggest celebrities and crowd pullers make ENCORE one of the biggest cultural events in the northern region.

HULT PRIZE

Hult Prize is a highly sought after year long annual competition that crowd sources ideas from college students all around the globe on social entrepreneurship. Along with full-fledged international exposure for each participant, the winner is awarded 1 Million dollars to incubate the idea that could impact millions. It is perhaps the only competition that is committed to incubate ideas of college students. The Hult Prize has four rounds which are , The On Campus , The Regionals , The Accelerator and the Globe Finals ,

FACILITIES PROVIDED TO RECRUITERS

- Computer Center with a capacity of 180+ Computers
- Auditoriums to conduct workshops and pre-placement talks
- Tele-interview rooms
- Video-conferencing facility
- Air-conditioned office and interview cabins
- Infrastructure to support online and written screening tests

IET to start courses in AI & data science

TNN | Apr 24, 2021, 04:48 AM IST

Lucknow: Candidates aspiring to make their career in artificial intelligence (AI) or data science outside Lucknow. The Institute of Engineering Technology (IET) will start MTech in AI and data science. The growing demands of the use of artificial intelligence and data science in the healthcare and medical sectors, at the time of the Covid-19 pandemic, has made the two courses popular among students.

"We will offer 18 seats in MTech AI and data science. Also, the institute is set to get the approval of All India Council for Technical Education (AICTE) for three courses: Mtech (mechanical engineering), MTech (structural engineering) and MTech (data science). This will help students in getting various national and international level fellowships," said Dr Kansal.

OTHERS

Now, B Tech computer science in Hindi at AKTU colleges

B Tech students of Dr APJ Abdul Kalam Technical University and its associated colleges will now be able to study computer science in Hindi.

GE Healthcare South Asia elevates Divya Srivastava as Chief Human Resource Officer

Srivastava completed her BTech from the Institute of Engineering & Technology (IET) and MSc from Tata Institute of Social Sciences (TISS), Mumbai. She has led the HR function for GE Healthcare across five regions and nine locations. As part of her responsibilities, she partnered with business leaders and regional leaders to co-create the commercial strategy in line with the context and shape the people strategy. Her leadership skills keep her in good stead in the path of GE Healthcare's global vision.

ACHIVEMENTS

- Hon'ble Education Minister Shri Prakash Javadekar presented IET with India Excellence Award 2017' as the best govt. engineering college in North India.
- IET is one of the few colleges in UP identified under Technical Education Quality Improvement Programme TEQIP Phase 3 for the transformation of the technical Education System in India in partnership with the World Bank.
- The Department of Civil Engineering is approved as the State Technical Agency for Pradhan Mantri Gram Sadak Yojana, by both the Central and State Government.
- Paper titled "Bending of Light near a Star Gravitational Red/Blue Shift & Black-Hole" was presented by Dr. RC Gupta (Professor Mechanical Engineering) at International Conference on Relativistic Astrophysics at Stanford University, US.
- IET Lucknow served as the host for the AKTU's Annual State Level Cultural fest 'Pravah' and Tech-fest 'Abhigyan'.
- Regional winner at "HULT PRIZE" 2020. winning team Unique O, presented the idea of transforming the ubiquitous "dhabas"; small, humble eateries on Indian highways frequented by domestic travelers by transforming them into a trustworthy hygienic entity.

ALUMNI

The alumni of IET Lucknow are of the highest caliber and repute. Many of them have reached positions of eminence in their selected fields of professions. They have reached perfection through excellence in their concerned fields which include - industry, business, public sector, academics, and research or as entrepreneurs. The Institute recognizes its alumni who have distinguished themselves through their work and have represented the institute by achieving and showcasing their best in different fields. This Institute also involves Alumni in its educational and research activities wherever possible, by inviting them to participate on its advisory boards, as visiting faculty or guest speakers.

PLACEMENT PROCEDURE

*as per students placement policies

The Placement Season begins in the month of July and goes up till June of the following year - For example: from July '18 to June '19

Invitations with the placement timeline and other relevant information are sent out to organizations by the Placement Cell from the month of March.

Post intimation by a company and submitting the JNF, a list of interested candidates fulfilling the company's criteria is prepared.

The tentative date for the company's visit is scheduled based on the package offered by the company. After receiving a confirmation, the cell arranges for a Pre-Placement Talk.

The company conducts their selection procedure and shortlist students for the interview process. The results are typically announced on the same day.

Students receiving confirmation letters are reserved for the concerned company and are not allowed to sit in any further recruitment drive.*

RECRUITER'S SAY

My personal thanks to the college faculty for imparting ample knowledge of current as well as emerging fields in engineering and technology. Excellent infrastructure, logistics and hospitality displayed by the students.

SURESH MAHANA

Bharat Electronics Limited

We were privileged to visit and interact with students at IET. I will rate the vigor of students at par with the best institutes in the country. They are amongst the brilliant minds in the country. The Campus to Corporate transition is easy for students at IET because the level of adaptation to technological changes is quite high and the institute will surely emerge as one of the most preferred schools to hire from in the near future.

VIVEK SINGHAL

VALUEFY

It was our pleasure to be in IET for campus placements. The quality and quantity of corporate-ready students are remarkably high. The students were well-versed in the ever-changing IT industry. Great teamwork was demonstrated by the placement team in conducting the recruitment drive.

NEERAJ NAIL

Analytic Quotient

It was a great experience to visit this institute. The hospitality of the institute was excellent. The students were highly energetic and disciplined. Looking forward to a synergistic relationship in the future.
